

**RESEARCH AND SCHOLARSHIP COMMITTEE MEETING**

**April 12, 2022**

**VIRTUAL**

**IN ATTENDANCE:**

Michael Quinn	CHAIR, Vice-Provost and AVP, Academic
Francine May	Designate for Dean, University Library
Lynne Lafave	Chair, Human Research Ethics Board
Ranjan Datta	Academic Staff Member (Arts)
Uthpala Tennakoon	Academic Staff Member (Business and Communication Studies)
David Legg	Academic Staff Member (Health, Community and Education)
Trevor Day	Academic Staff Member (Science and Technology)
Carolyn Willekes	Academic Staff Member (Teaching & Learning)
Angela Galeos	Student Representative

Resources

Liza Choi	Associate Dean responsible for research
Danah Duke	Institute/Centre Director
Julia Thiesen	Marketing and Communications designate
Sheena Jensen	RECORDING SECRETARY, Assistant University Secretary, GFC

**NOT IN ATTENDANCE:**

Melissa Deane	Director, Office of Research, Scholarship and Community Engagement
Nabeel Muhammad	Student Representative
Kenna Olsen	VICE-CHAIR, GFC Academic Staff Member
Michael Roberts	Associate Dean responsible for research
James Stauch	Institute/Centre Director
Madelaine Vanderwerff	Academic Staff Member (University Library)

M. Quinn, Chair, called the meeting to order at 3:35pm and confirmed quorum.

**APPROVAL OF AGENDA**

***Moved and seconded:***

**THAT** the Agenda for the April 12, 2022 Research and Scholarship Committee meeting be approved.

***Motion carried***

**APPROVAL OF MEETING MINUTES**

***Moved and seconded:***

**THAT** the Minutes of the March 15, 2022 Research and Scholarship Committee meeting be approved.

***Motion carried***

### **Business Arising from the Minutes**

There was no business arising from the minutes.

### **WORKING GROUP UPDATES**

#### **International Research**

A brief update was given on the work and consultations in progress for the international travel resource document.

#### **Research Policies**

Discussion took place on the proposed amendments to the Institutes Policy and the Integrity in Research Scholarship Policy. The working group provided an additional update on the progress to amend the Human Research Ethics Policy.

The need for more education and information for researchers and scholars regarding the responsible conduct of research was also discussed.

RSC recommended that the draft amendments to the Institutes Policy and the Integrity in Research Scholarship Policy move on to the next stages in the MRU policy review process as per the Policy on Policies.

#### **Research and Scholarship Days**

Research and Scholarship Days occurred April 4 – 8 and the working group reported that it was highly successful. Thanks was expressed to the volunteers and participants. A summary of events, participants and volunteers was given.

#### **Research and Scholarship Recognition Awards**

The Research and Scholarship Recognition Awards were presented at an event during Research and Scholarship Days. This year's awardees were recognized:

- Leah Hamilton - Undergraduate Supervision Award
- Mohamed El-Hussein - Research and Scholarship Award
- Kimberly Williams - Knowledge Mobilization Award
- Michael Asmussen - Emerging Scholar Award

Presentations can be viewed at [mru.ca/RRA](http://mru.ca/RRA). An overview of learnings from the adjudication process was shared and will be provided to next year's working group, and thanks was expressed to all those involved this year.

#### **Undergraduate Research and Scholarship**

A written report was provided and is attached to the minutes.

### **COMMITTEE CHAIR REPORT**

The Chair's Report was presented and is attached to the minutes.

**GOOD NEWS STORIES**

The Good News Stories were received for information and are attached to the minutes.

**NEW BUSINESS**

There was no new business.

**ADJOURNMENT**

**4:42PM**

**ATTACHMENT: Undergraduate Research Working Group Report****Undergraduate Research Dissemination Fund (URDF)**

Committee members met on March 29 to review applications for the fund. The list of successful applicants will be made available on the ORSCE website in coming weeks.

**Other UR News and Events**

- The [2022-2023 Catamount Fellowship program is looking for faculty mentors](#)
- Check out these recent stories highlighting student contributions to research
  - [Steps forward in undergraduate research](#) (students from FCHE)
  - [Citizen science project puts Calgary biodiversity in focus](#) (Miistakis Institute)
  - [Building a just and sustainable future for all](#) (Catamount Fellows)
- [Science student Katlyn Squires](#) advances to the Map the System Canadian finals with their project on healthcare access for sex workers
- Students across the institution presented their research during Research and Scholarship Days April 4-8. The [winners and runners up for the university wide events](#) have been posted.

**Reminders**

- The [Library Awards for Research Excellence](#) are now taking submissions. The deadline for students to apply is May 12, 2022. Awards will be given to the best individual and group research projects completed between Winter 2021 and Winter 2022 as part of MRU credit coursework or as part of a MRU sponsored fellowship program (e.g. Catamount Fellowship)
- Mokakiiks Centre for Scholarship of Teaching has launched a [job board for research assistants](#). Faculty supervisors will also find resources about hiring and onboarding RAs posted there.
- The recording of the recent FCHE event “Becoming a Student Assistant” is available to view on their [website](#).

**ATTACHMENT: Committee Chair's Report**

- **THANK YOU** to everyone who helped to make Research and Scholarship Days a successful event. It was particularly meaningful to see the student posters return to Mainstreet. Special recognition goes out to Cari Merkley and Julie Thiesen for their leadership and hard work.
- **Congratulations** to this year's recipients of [Research Recognition Awards](#):
  - Leah Hamilton - Undergraduate Supervision Award
  - Mohamed El-Hussein - Research and Scholarship Award
  - Kimberly Williams - Knowledge Mobilization Award
  - Michael Asmussen - Emerging Scholar Award
- **TriAgency Awards.** MRU faculty members have had success both internally and as collaborators on external applications. The work required to prepare one of these applications is very significant and often requires multiple applications for success. ORSCE continues to provide strong support through direct work with Yvonne as well as peer workshops. Special recognition to recent awardees:
  - *SSHRC Insight* - AnneMarie Doland received a grant for 'Creative Thinking At Work: A Study Of Design Thinking And Creativity Relevant Processes In Canadian Organizations' : \$64,835.00 (1 of 4 MRU applications funded)
  - *SSHRC Connection* - Katherine Boggs was awarded a grant for a project titled 'Community Science Liaison Training Workshop \$22,900.00.
  - *NSERC Discovery* - Margaret Stewart for being awarded an NSERC Discovery Grant for her project 'Hydrothermal ore-forming processes in modern and ancient arc-backarc systems' - \$130,000 + \$12,500 for five years (1 of 4 MRU applications funded)
  - *NSERC RTI* - Mike Asmussen was awarded MRU's first NSERC Research Tools and Instruments Grant for 'CRAFT Simulator: A Robotic Device for the Identification of Human Foot Structure and Function' \$124,925.00 (1 of 2 MRU applications funded)
  - **Others**
    - MRU received a \$50,000 award from the to advance the continued development and implementation of the EDI Action Plan for the Canada Research Chair Program.
    - MRU received an award from the SSHRC Institutional Grant program for \$39,663 over three years. These funds are used to supplement our Internal Research Grant awards.
    - We have two active processes for Canada Research Chair - tier 2 nominations.
  - **External**
    - Kelly Sundberg is a collaborator on a successful grant awarded at UofC - Emergency Management Cycle-Centric R&D: From National Prototyping to Global Implementation (NFRF) - 2021 Innovative Approaches to Research in the Pandemic Context - \$237,970
    - Aliyah Dosani is a member of a research team lead by Dr. Nicole Letourneau (UCalgary) that has recently been awarded a +\$2M CIHR Training Grant entitled, "Alliance against Violence and Adversity (AVA): Health and Social Services Research Training Platform for System and Population Transformations in Girls and Women's Health."
    - Ranjan Datta, is a co-applicant on a successful SSHRC Partnership Grant, entitled "Bridging the Water Adaptation Gap: a Comparative Inter- and Transdisciplinary Perspective of Regional Risks and Vulnerabilities in Drylands in Canada and Latin America". This grant is lead by Dr. Margot Hurlbert (URegina) and was awarded over \$2M.

---

**ORSCE Workshops**

### **Elements of Success: Grant Writing across Funding Agencies**

Thursday, April 21 @ noon – 2pm, Google Meets

Panelists: Jeella Acedo, Aliyah Dosani, Rachael Pettigrew, Paul Varella Connors

What are the general elements of a grant application? What are some strategies that you can use to increase your chances of success? Come and listen to previously successful grant awardees and how they increased their chances of success.

Registration required [here](#)

*Suitable for: all disciplines, emerging researchers*

### **Behind the Curtain of Federal Grants Adjudication Committees**

What happens after you submit your tri-agency grant application? Come and hear about the adjudication process from the mouths of MRU committee members. Get the inside scoop on what Ottawa reviewers see and what they really think. We are offering separate panels for different funding competitions.

Register through each link below:

[SSHRC](#) - Wednesday, April 20 @ 2 – 3:30pm with Margot Hulbert (URegina), Lisa Hughes (UCalgary), Susanna Barnes (USask)

[NSERC](#) - Tuesday, April 19 @ 11 – 12:30pm with Trevor Day and Greg Moorhead (UCalgary)

[NFRF](#) - Wednesday, April 13 @ 12:30 – 2pm with Leah Hamilton and Yasaman Amannejad

### **EDI in a Research Environment**

Thursday, April 14 @ 10 – 11:30am, Google Meets

Panelists: Yasaman Amannejad and Leah Hamilton

What does it mean to address EDI in your grant application? What supports are available at MRU for addressing EDI concerns in research? What does 'meaningful inclusion' look like? Hear from two MRU researchers who serve on Tri-Agency working groups and committees where EDI is a high priority.

Registration required [here](#)

*Suitable for: all disciplines, all career levels*

---

### **Tri-Agency News, Webinars, and Resources**

SSHRC Dialogue - [March newsletter](#)

NSERC Contact - [Spring newsletter](#)

CIHR Access - [March newsletter](#)

**New Joint Initiative SSHRC PEG Residential Schools Joint Initiative** The National Centre for Truth and Reconciliation (NCTR) and the Social Sciences and Humanities Research Council (SSHRC) are partnering to offer a unique opportunity to support Indigenous communities in their decision-making processes, research, and actions regarding residential schoolsites in Canada. This NCTR-SSHRC joint initiative is taking the form of a one-time Partnership Engage Grant on residential schools; the [PEG RSJI](#) follows PEG regular [eligibility criteria](#) and aims to support projects presented by a researcher and responding to a community's need for either planning, discussions, archival work, or storytelling prior to, or in addition to, excavations or identifications on residential schoolsites in Canada. Projects can also focus on ground exploration, identification of sites and remains, repatriation of missing children from residential schools in Canada or pertain to the mapping and preservation of these sites, as judged appropriate by the community. SSHRC is committed to invest up to \$1M over the June 2022 PEG competition to support residential schools related projects. Grants are valued at a maximum amount of \$50K per project for a duration of one year. More information is available [here](#) and in the Funding Opportunities section, below. For more information, contact: [partnershipengagegrants@sshrc-crsh.gc.ca](mailto:partnershipengagegrants@sshrc-crsh.gc.ca), 1-855-275-2861

**Become a Member of CIHR's Institute Advisory Boards** The Canadian Institutes of Health Research (CIHR) is recruiting members to join its Institute Advisory Boards (IABs). Diversity of expertise and experience are key to the success of IABs. Their primary function is to provide advice to Institute Scientific Directors on health research priorities. They also make recommendations on how best to shape and implement health research strategies in line with these priorities, and to accelerate the flow of knowledge into health benefits. IABs meet at least twice a year. Members are reimbursed for travel and accommodation. CIHR encourages members from all communities to apply, especially those from groups historically underrepresented in research, including Black, Indigenous, and racialized communities; LGBTQ2S+ communities; Francophone communities; and persons with disabilities. **Applications will be accepted until May 2, 2022.** [Visit the CIHR website](#) for more information on IABs, including how to apply.

**Call for proposals - International Policy Ideas Challenge 2022** SSHRC is pleased to announce the launch of the sixth edition of the [International Policy Ideas Challenge](#) call for proposals, organized in partnership with Global Affairs Canada. This is a great opportunity to support training and coaching for graduate students, post-doctoral fellows, and early career researchers in building presentation, writing and knowledge mobilization skills that will inform policy development on emerging international policy challenges. **Application deadline is May 20, 2022.** Should you have any question about this call, please contact Global Affairs Canada at: [IPIC-CIPI.POR@international.gc.ca](mailto:IPIC-CIPI.POR@international.gc.ca).

**Developing CIHR's Anti-Racism Action Plan: Environmental Scan Findings and Virtual Engagement Sessions** CIHR is [committed](#) to fostering an anti-racist health research ecosystem that values all perspectives and promotes a more inclusive approach to research excellence. To achieve this commitment, CIHR is working with our [External Advisory Committee on Anti-Racism](#) to co-develop an action plan to address systemic racism across all aspects of the CIHR funding system. CIHR is using a variety of information sources to co-develop the anti-racism action plan. They are pleased to share [the summary of the findings](#) from an environmental scan on systemic racism, and to provide [an update](#) on ongoing virtual engagement sessions to refine their draft anti-racism action plan. A summary of what is learned from the virtual engagement sessions will also follow on their website in the coming months. CIHR looks forward to sharing their progress as they work towards fulfilling their [commitment](#) to removing systemic barriers from CIHR's research funding system. If you have any questions in the meantime, please contact: [edi@cihr-irsc.gc.ca](mailto:edi@cihr-irsc.gc.ca).

**CIHR External Advisory Committee on Accessibility and Systemic Ableism** CIHR is pleased to introduce our new [External Advisory Committee on Accessibility and Systemic Ableism](#). Forming this committee gives CIHR an opportunity to learn from people with lived experience and expertise as we try to make our organization more equitable, diverse, and inclusive. The committee will help CIHR identify barriers and make recommendations to CIHR on ways to prevent and remove barriers faced by persons with disabilities when it comes to accessing research funding. Ultimately, the committee will help CIHR co-develop an action plan with the goal of eliminating systemic ableism in the health research funding system. Visit the [webpage about accessibility and addressing systemic ableism](#) to learn more about the advisory committee and to access resources and read researcher profiles. In the near future, there will be updates about CIHR's plans to work with the wider research community towards ending systemic ableism in Canada's health research funding system including opportunities to get involved. If you have any questions, please contact [edi@cihr-irsc.gc.ca](mailto:edi@cihr-irsc.gc.ca).

**A statement from the presidents of Canada's federal research granting agencies to support Ukrainian research trainees** As the presidents of Canada's three federal research funding agencies—the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council (NSERC) and the Social Sciences and Humanities Research Council (SSHRC)—we wish to express our deep solidarity with the Ukrainian people in the context of Vladimir Putin's unjustifiable invasion of Ukraine.

We welcome the recent [statement](#) by the Honourable François-Philippe Champagne, Minister of Innovation, Science and Industry, and the Honourable Jean-Yves Duclos, Minister of Health, calling for measures to support Ukrainian research personnel in their time of need.

To this end, our agencies are pleased to announce a new Special Response Fund for Trainees (Ukraine). This temporary fund will allow all active and eligible grant-holders across the three agencies to apply for a supplement that will provide one-year relief and assistance to trainees (i.e., individuals eligible for master's, doctoral or postdoctoral support) whose research in Ukraine has been interrupted by the invasion. Additionally, it enables grant-holders to retain research trainees who were expected to return to Ukraine in 2022 but cannot because of the current situation.

This special Fund will be in effect until the end of 2022, subject to review based on the evolving situation. The design of the Fund leverages past pilot projects to support refugees stationed at Canadian research institutions, such as [training awards](#) launched by CIHR in partnership with the International Development Research Centre, in 2016. Further details of the Fund will be released in the coming weeks, with information made available on our respective agency websites.

Going forward, our agencies commit to refraining from entering into agreements with Russian research institutions. Recognizing the value of open science, and the historic role many scientists, academics and researchers have played in defending freedom from tyranny, there will be no broad-based ban on collaborations with individual Russian researchers. However, we will work with Canada's research institutions to ensure that no new collaborations with individual Russian researchers are established in areas that advance the interests of Vladimir Putin's regime. NSERC will also ask grant-holders to suspend current, and prohibit future, federally funded research collaborations involving Russian industry, effective immediately. *Alejandro Adem, FRSC (President, NSERC), Ted Hewitt, PhD (President, SSHRC), Michael J. Strong, MD, FRCP, FCAHS, FAAN (President, CIHR)*

**NSERC Synergy Awards Call for Nominations.** The [Synergy Awards for Innovation](#) honour strong, complementary and collaborative teams who have generated new knowledge and accelerated the application of research results to create benefits for Canada and Canadians. The award recognizes outstanding teams who have combined their expertise and resources to create partnerships resulting in significant impacts. Changes have been made to these Awards, which include:

- Broadened partner eligibility to include public and not-for-profit partner organizations, in addition to private sector ones
- Expanded scope of the Synergy Awards to include social and environmental benefits to Canada and Canadians
- Increased voucher value to \$50,000 for winning partners (previously \$30,000 for university partnerships), and this voucher is now open to most research partnerships programs

In addition to the above, the parameters around nominators have also expanded - now all Canadian citizens or permanent residents can submit a nomination.

The submission deadline for this year's nominations is April 19, 2022 at 8 p.m. (EDT). Please read the [call for nominations](#) carefully to learn about all of the changes and to ensure that your nomination meets the requirements.

**ATTACHMENT: Good News Stories**

- MRU received a \$50,000 award from the to advance the continued development and implementation of the EDI Action Plan for the Canada Research Chair Program.
- MRU received an award from SSHRC Institutional Grant program for \$39,663 over three years. These funds are used to supplement our Internal Research Grant awards.
- Congratulations to Katherine Boggs for being awarded a SSHRC Connection grant for a project titled 'Community Science Liaison Training Workshop \$22,900.00.
- Congratulations to AnneMarie Doland for being awarded a SSHRC Insight grant for 'Creative Thinking At Work: A Study Of Design Thinking And Creativity Relevant Processes In Canadian Organizations' : \$64,835.00.
- Congratulations to Michael Asmussen for being awarded an NSERC RTI grant for
- Congratulations for Kelly Sundberg for being a collaborator on a successful grant awarded at UofC - Emergency Management Cycle-Centric R&D: From National Prototyping to Global Implementation (NFRF) - 2021 Innovative Approaches to Research in the Pandemic Context - \$237,970
- Congratulations to Ranjan Datta for being named one of the Alumni Ambassadors for the School of Sustainability at the University of Saskatchewan.
- Congratulations to Aliyah Dosani , member of a research team lead by Dr. Nicole Letourneau (UCalgary) that has recently been awarded a +\$2M CIHR Training Grant entitled, "Alliance against Violence and Adversity (AVA): Health and Social Services Research Training Platform for System and Population Transformations in Girls and Women's Health."
- Congratulations to Ranjan Datta, co-applicant on a successful SSHRC Partnership Grant, entitled "Bridging the Water Adaptation Gap: a Comparative Inter- and Transdisciplinary Perspective of Regional Risks and Vulnerabilities in Drylands in Canada and Latin America". This grant is lead by Dr. Margot Hurlbert (URegina) and was awarded over \$2M.
- Congratulations to Margaret Stewart for being awarded an NSERC Discovery Grant for her project 'Hydrothermal ore-forming processes in modern and ancient arc-backarc systems' - \$130,000 + \$12,500 for five years.
- Congratulations to Ray DePaul and The Institute for Innovation and Entrepreneurship received a \$1.4 million investment agreement from Alberta Innovates for the Growth Compass project.
- Congratulations to Mike Asmussen for receiving MRU's first NSERC Research Tools and Instruments Grant for 'CRAFT Simulator: A Robotic Device for the Identification of Human Foot Structure and Function' \$124,925.00
- Department of Chemistry and Physics student Zafina Budhwani, has been awarded an [Amgen Scholars Program](#) scholarship hosted by University of Toronto. She is one of the 15 students selected all over Canada. All her accommodations, travel, conferences etc. will be paid by the scholarship program which will run from May 30-August 5 this spring/summer.
