

# Showing Hidden Columns in Blackboard Grade Center

This tutorial demonstrates how to make a column that you have previously hidden visible again.

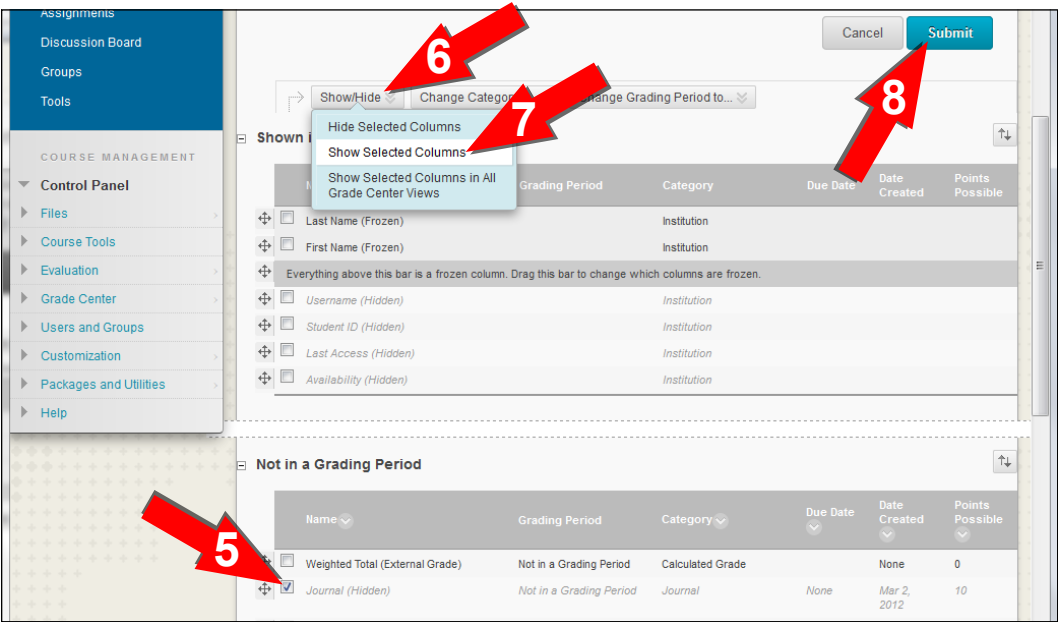

Some instructors accidentally hide columns from themselves intending to only hide the column to their students, or they have purposely hidden them and would like to reveal them again.

1. Click **Grade Center**.
2. Click **Full Grade Center**.
3. Click **Manage**.
4. Click **Column Organization**.

5. Check the column that you would like to show.
6. Click **Show/Hide**.
7. Click **Show Selected Columns**.
8. Click **Submit**.

9. If you would like to hide the column only to your students, click the down arrow beside the column.
10. Click **Show/Hide Users**.
