# How to choose your courses

You can complete your program in 1-6 years by taking as many or as few courses per semester as suits your schedule.

To finish the program within 1 year, you may register for courses as they are listed on page 1 of this guide.

To plan a custom schedule, follow these steps:

1. Review your mruGradU8 profile ([MyMRU](#) > My Program > mruGradU8) to see your current, completed and required courses. Make note of the courses you still need to complete.
2. View the course list on page 1 to see when your remaining courses are offered.
3. Once you've chosen your courses, you can register through [MyMRU](#). There's a great [course registration tutorial here](#) with step-by-step instructions.

Tips:

- We recommend prioritizing courses that are prerequisites for others
- Stay informed about add/drop dates, withdrawal dates, and other registration timelines through the [Critical Dates Calendar](#).

# About your courses

## Online

- Instructor-facilitated online courses begin and end on set dates with specific deadlines for assessments.
- Courses may include live, synchronous tutorials delivered virtually using Google Meet. Dates and times for tutorials will be provided on the first day of class in the course outline. Tutorials will be recorded for viewing at a later time if you are unavailable to attend the live session
- Final exams are proctored online through Proctor U (fees apply)

## Work experience

- Work experience hours are completed through employment or volunteering in a licensed funeral home under the supervision of a licensed embalmer in the embalming preparatory room.
- It is your responsibility to secure a work experience location, but MRU does have resources to assist you. [Career Services](#) can help you with your job search, resume critique, interview skills and more.
- Work experience may be completed in your own community, but relocation may be required to find a suitable placement
- Funeral homes often have additional requirements for employees, such as:
  - Non-Graduated Class 5 Driver's License
  - Driver's Abstract
  - Police Information Check

## In-person

- Take Embalming Practicum early in your program to give yourself more time to complete logs during your work experience courses.
- Standard Embalming Decedent Logs (required for professional licensing) are distributed during the Embalming Practicum course.
- Intensive format
  - In-person courses are scheduled in an intensive format over 12 days to allow students to complete both in-person courses concurrently.
  - If you're coming from outside of the Calgary area, consider taking both in-person courses concurrently in an intensive format. Make sure you have the prerequisites for both courses.
- If you live in the Calgary area, you can take Embalming Practicum in a non-intensive format over a full semester (recommended).
