

International Student Tuition maximum

for International students entering a designated learning program in Fall 2020

International student Tuition Fees are applied to students who are not Canadian citizens or Permanent Residents of Canada (some exclusions apply). In the admission acceptance letters for international students, Mount Royal University is required to outline the annual maximum tuition for a program based on the standard course load for each year of an international student's program of study. Institutions are not permitted to exceed the maximum stated amounts in the International Tuition and the International Program Specific Fees columns for the standard duration of each program as indicated in the table below. The requirement to remain at or below maximums only applies to an international student's program of admission. Should a student apply, or transfer, to another program, the student will be subject to new annual maximums in accordance with the year this change occurs.
