

Map the System Campus Coordinator

Mizuki Oshita

Mizuki's role as Map the System Campus Coordinator is anything to do with Map the System on the campus level. She particularly enjoys the promotional phase of the program, as her love and passion for it comes from her own experience participating in Map the System twice while studying Social Work as an international student. Her team's submission on Indigenous Children in Canadian Child Welfare was chosen among the top 8 in Canada. The exposure to Systems-Thinking widened Mizuki's perspectives in just about every aspect of her life. Mizuki strongly hopes to reach out to as many MRU students as possible to bring the benefits of Map the System experience for their educational journey. Mizuki recently started her new pursuit as in Computer Information Systems after having worked in homelessness and addictions, for a few years. With her brand new educational aspiration, she now also serves as Projects Assistant at the Centre for Social Impact Technology. In addition to that, she is also an avid ballroom dancer, searching for the betterment of body movement.
