Computers, Tablets and Smartphones

Make the most of mobile computing devices such as laptops, tablets and smartphones. Use programs such as Word and PowerPoint as you develop your typing and keyboarding skills.

Explore the accessibility features and apps in tablets, laptops and smartphones. You'll increase your ability to safely and successfully search the Internet for the information you're looking for.

When you finish this course, you will:

- » be able to register for web-based email programs such as Gmail and successfully use them
- » understand basic computer terminology
- » understand and be able to use these devices in your daily life

More than just a class

- » meet new people and build a social network
- » take part in interactive learning activities
- » experience campus life at Mount Royal University
