

Internet Safety: Protecting Yourself Online

This class will help you to identify potential online risks and provide the knowledge and tools to use the internet safely.

When you finish this course, you will:

- » Be familiar with “Internet language”
- » Define and understand personal information disclosure
- » Understand the difference between privacy vs openness
- » Learn methods of staying safe while surfing the Internet
- » Recognize unsafe websites
- » Explore various social media platforms and identify potential risks, such as fake profiles and the dangers posed from fraudulent individuals
- » Understand the concepts behind cyber bullying
- » Develop techniques to download files safely
- » Identify various online risks of using credit cards, online gaming, and online gambling

More than just a class

- » meet new people and build a social network
- » take part in interactive learning activities
- » experience campus life at Mount Royal University
